

# Muhammad Saqlain Mirza

Senior UI UX Designer, Product Designer

*A meticulously organized and industrious individual seeking a position of responsibility to acquire practical experience, leveraging my strong interpersonal skills to accomplish personal and professional goals.*

## Work Experience

### Senior Consultant - UI / UX @ Systems Limited

OCT 2025 - PRESENT

Lead UX strategy and product design for enterprise solutions, collaborating with cross-functional teams to craft user-centric, scalable, and visually consistent digital experiences. Improved usability, streamlined design processes, and mentored junior designers to uphold design excellence.

### Senior Product Designer @ Ititans

SEP 2023 - OCT 2025

In my role as a Senior Product Designer at Ititans, I lead collaborative efforts with cross-functional teams to gather requirements and craft visually compelling and user-friendly interfaces. My responsibilities include conducting user research, developing wireframes, and designing interactive prototypes.

### Senior UI UX Designer @ Orcalo Holdings

AUG 2022 - SEP 2023

As a UI/UX Designer at Oracle Holding, I collaborate closely with cross-functional teams to gather requirements and develop visually appealing and user-intuitive interfaces. My responsibilities encompass conducting user research, crafting wireframes, and designing interactive prototypes. I also prioritize consistency across platforms and devices while iterating designs based on user feedback and business needs.

### UI UX Designer @ Go Globe

MAY 2022 - JULY 2022

I served as the primary researcher and designer for the website and mobile apps of Go Globe, a company based in Dubai with roots in the Czech Republic. Over the course of my tenure, I spearheaded over three redesigns, enhancing both the aesthetics and functionalities of the platforms.

### UI UX Designer @ Swismax Solutions

OCT 2020 - MAR 2022

At Swismax Solutions, a UK-based company operating in Islamabad, I undertook comprehensive project management responsibilities. This encompassed overseeing all aspects from initial research and wireframing to designing, development, testing, and final project delivery to clients.

### UI UX Designer @ Nexthon Technologies

OCT 2017 - SEP 2020

I embarked on my professional journey in 2017 at Nexthon Technologies as a front-end developer. Although I encountered several challenges initially, I persevered and surmounted them. By early 2018, my fascination with UI/UX design grew, prompting me to transition into the role of a UI/UX Designer specializing in web and mobile applications.

## Education

### Bachelors of Science in Computer Science @ NCBA & E

OCTOBER 2016- AUGUST 2020
